

## Online facilitation Overview

### Description:

The rapid shift to online meeting and working is both exciting and a little bewildering. We have lots of experiences of working with groups in rooms with flip chart paper, post it notes and group discussion but how do we transfer this to a virtual environment? This 2.5-hour virtual interactive workshop for up to 50 participants will share tips, ideas, and ways of working with teams online. We will share our experience and some resources as we all suddenly find themselves working in a virtual online world.

Participants will experience various approaches to facilitating online learning, including group discussions, plenary discussion, interactive polling, chat box discussion, virtual brainstorming and breakout room discussion.

The discussion will cover a range of options available and run through numerous tips, traps, challenges and of course in doing so, provide useful insight and advice. Never has collaboration, sharing and the wisdom of the crowd been needed more, join our virtual session to discuss virtual sessions.

### The workshop will cover:

- 8 top tips for online delivery
- Tools for engagement
- Engaging ideas

### Who should log in:

Anyone who needs to facilitate meetings or training virtually.
